

LUXURY HOME AUTOMATION

When we set out to create Josh, we wanted to design the perfect smart home experience. Josh is immensely powerful, yet simple to use. With advanced voice control and a suite of technology whose sole purpose is to make your home a delightful environment, Josh powers some of the most advanced homes today. We believe privacy is non-negotiable in the home and Josh has been engineered to protect your data and earn your trust.

We're excited to share the vision and introduce you to Josh!

Tim Gill, CTO

Alex Capecelatro, CEO

Live smarter—Josh takes care of the little things in life so you can focus on what's important.

With Josh, luxury harmoniously blends with technology to offer a simplified and secure home interface. Easily set the mood with natural voice commands or efficiently control your property using the Josh app. Whichever way is most natural for you to interact with your environment, Josh is here to help.

Introducing Josh Nano

The smart home's first Architectural
Microphone—robust technology meets
uncompromising design to seamlessly
blend into the decor of every room.

Josh Nano is location-aware, enabling
contextual commands to set the mood in
every room of your home. Effortlessly tune
lights, adjust shades, play music, and more!

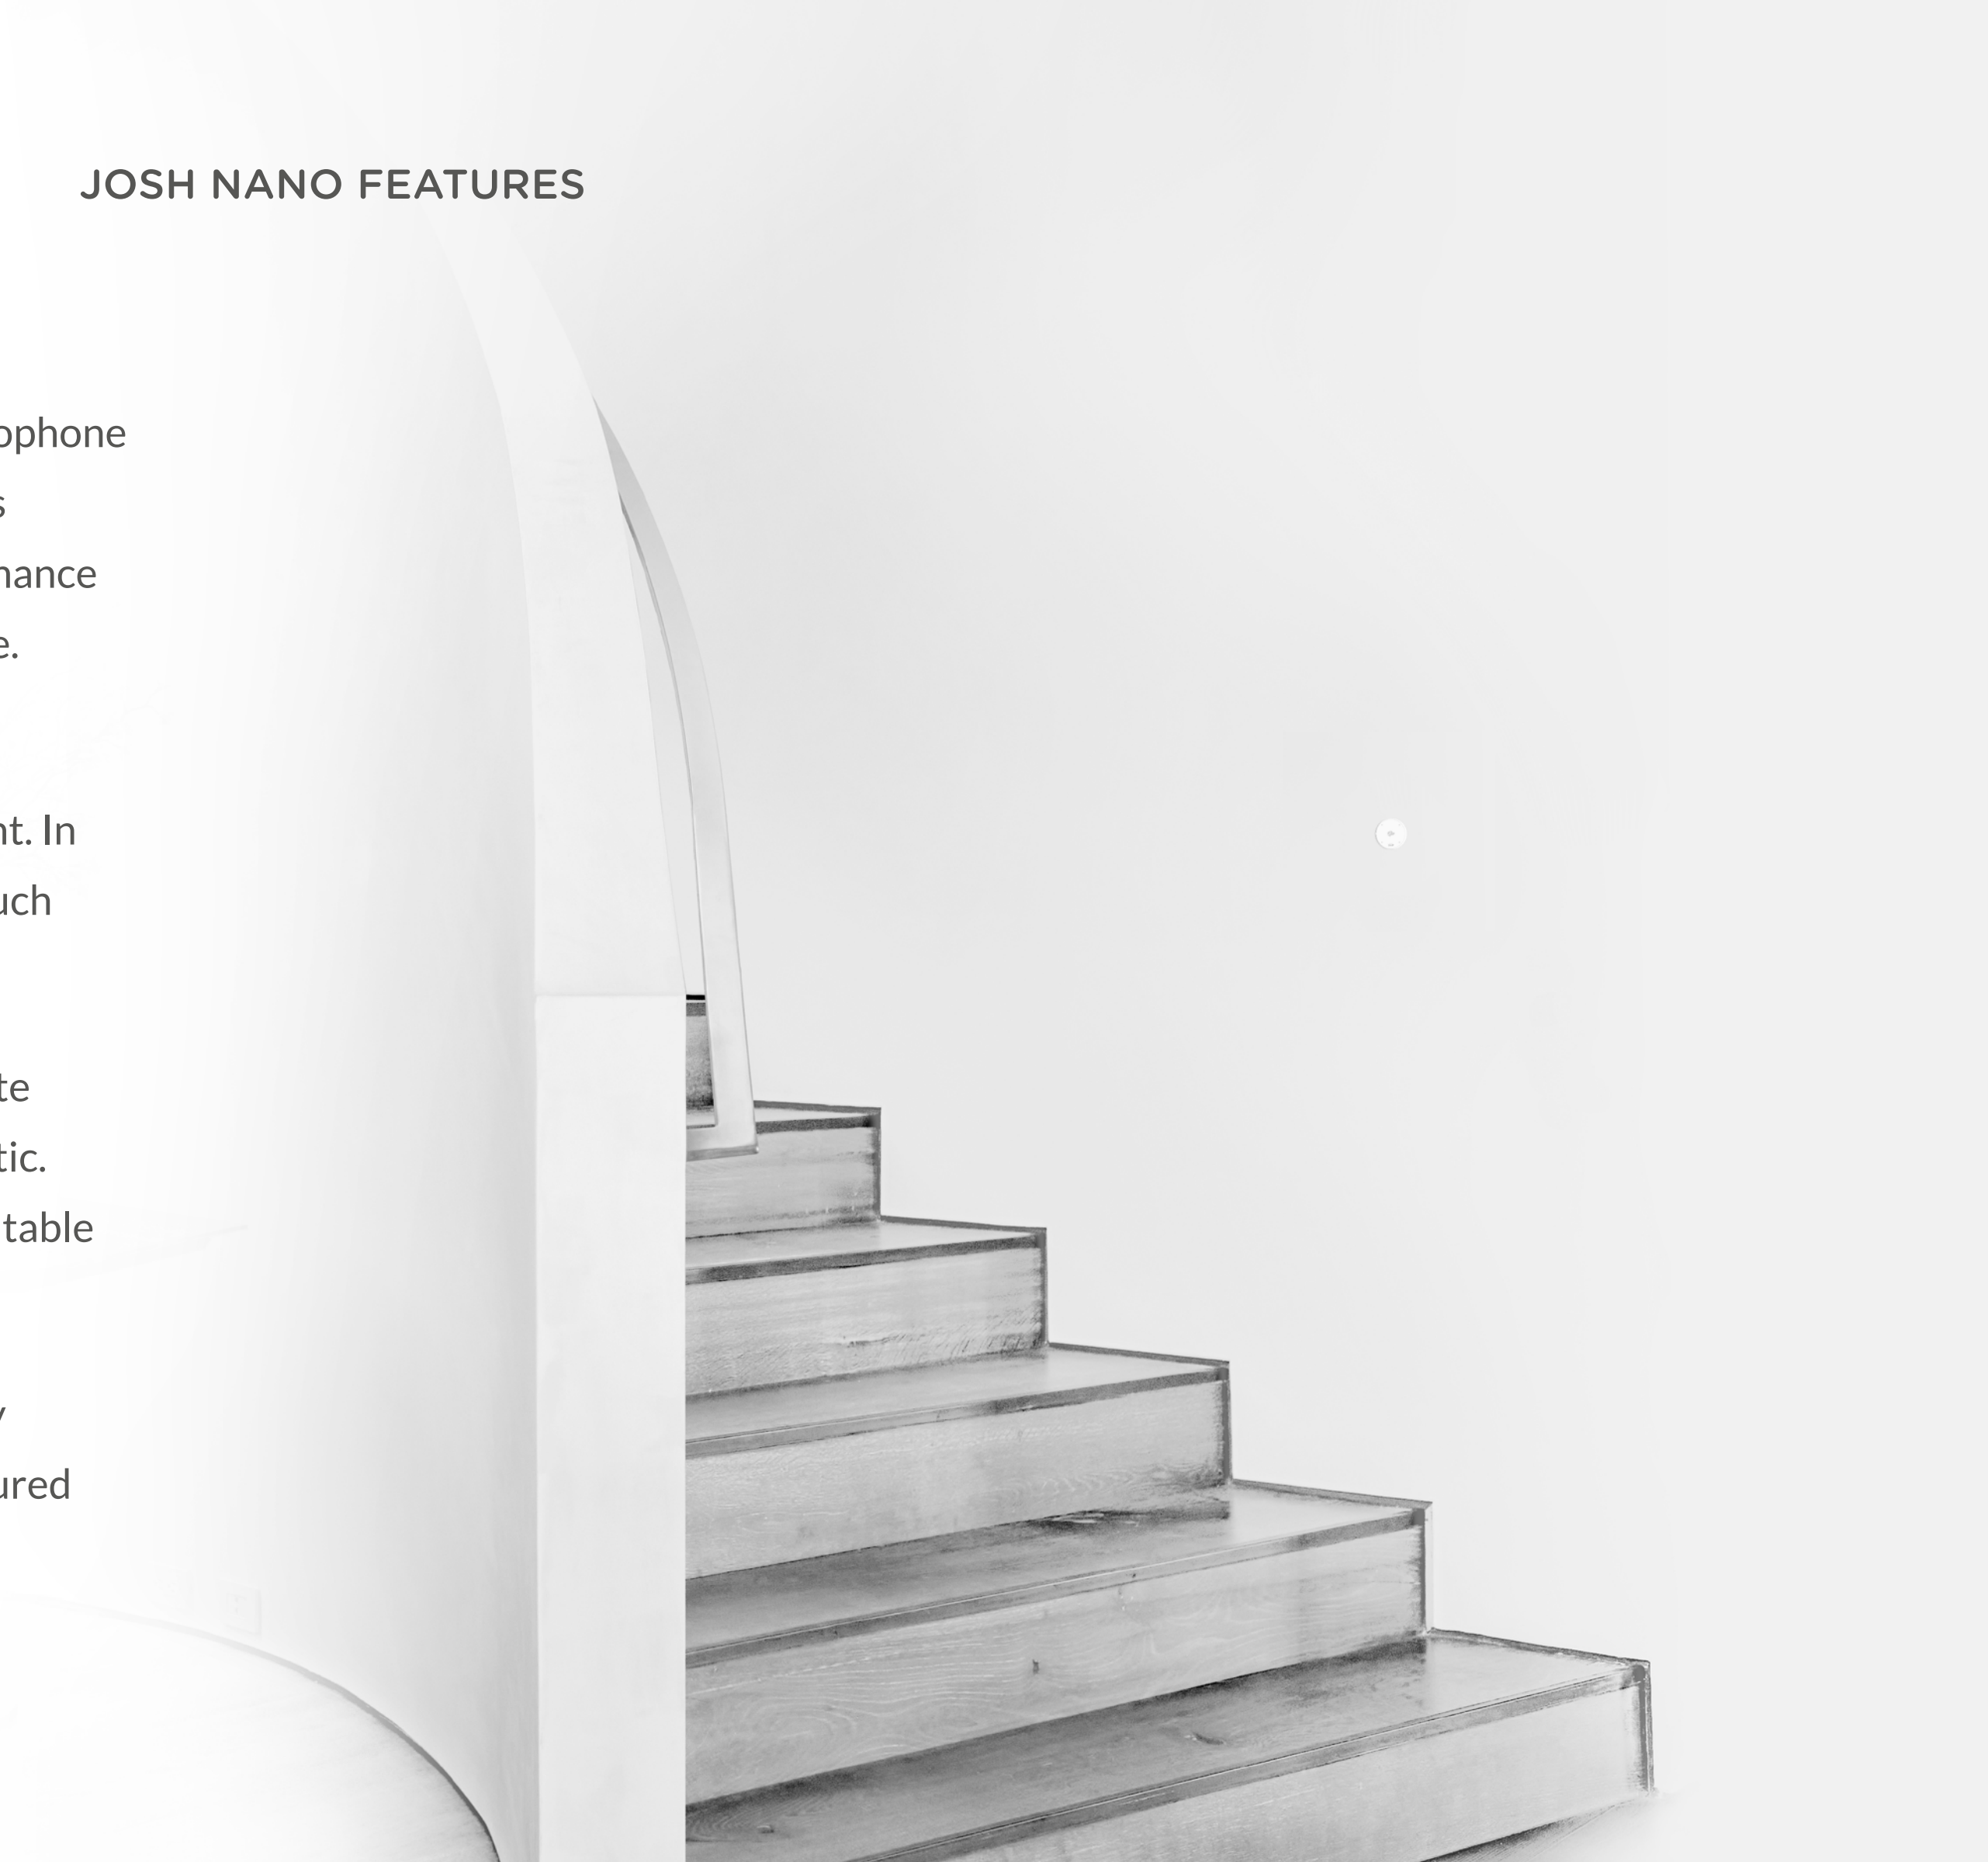

JOSH NANO FEATURES

HANDS-FREE CONTROL IN EVERY ROOM—Josh Nano’s four microphone array features advanced far-field listening, while Josh Nano’s audible responses are disseminated by a room’s high performance speakers to deliver a truly connected smart home experience.

IMPOSSIBLY SMALL—Measuring 42mm in diameter by 3mm in depth, Josh Nano is the smallest and mightiest home assistant. In addition to voice control, Josh Nano includes a capacitive touch sensor and an LED light ring that provides visual feedback.

DESIGNED TO DISAPPEAR—Josh Nano is available in Coral White and Jet Black to subtly suit any environment’s design aesthetic. Camouflage Josh Nano with a custom circular or square paintable cover to make your home’s technology truly invisible.

PRIVACY IS PARAMOUNT—Josh Nano is equipped with a privacy switch that physically disconnects its microphones. Rest assured that what is said behind closed doors stays there.

JOSH MICRO FEATURES

PRIVACY-FOCUSED

Everything you say and do in your home is secure. Control your data by setting how much you want Josh to learn.

CONTEXT-AWARE

Josh knows the context of what you said. “OK Josh, make it louder,” turns up the music you just requested.

LOCATION AWARENESS

Josh Micro knows which room it’s in. “OK Josh, turn on the lights,” illuminates the area around you.

WHOLE HOME CONTROL

Each Josh Micro has the power to run your entire home.

MULTI-TASKING

Josh understands multiple commands in a single sentence.

PROACTIVE ASSISTANCE

Josh.ai offers recommendations based on your unique patterns.

NATURAL INTERFACE

Activate by saying “OK Josh,” or by tapping the surface of the Micro.

BLENDS INTO YOUR HOME

Josh Micro elegantly mounts on the wall, tucking away unsightly cables.

RESPONSIVE TOUCH

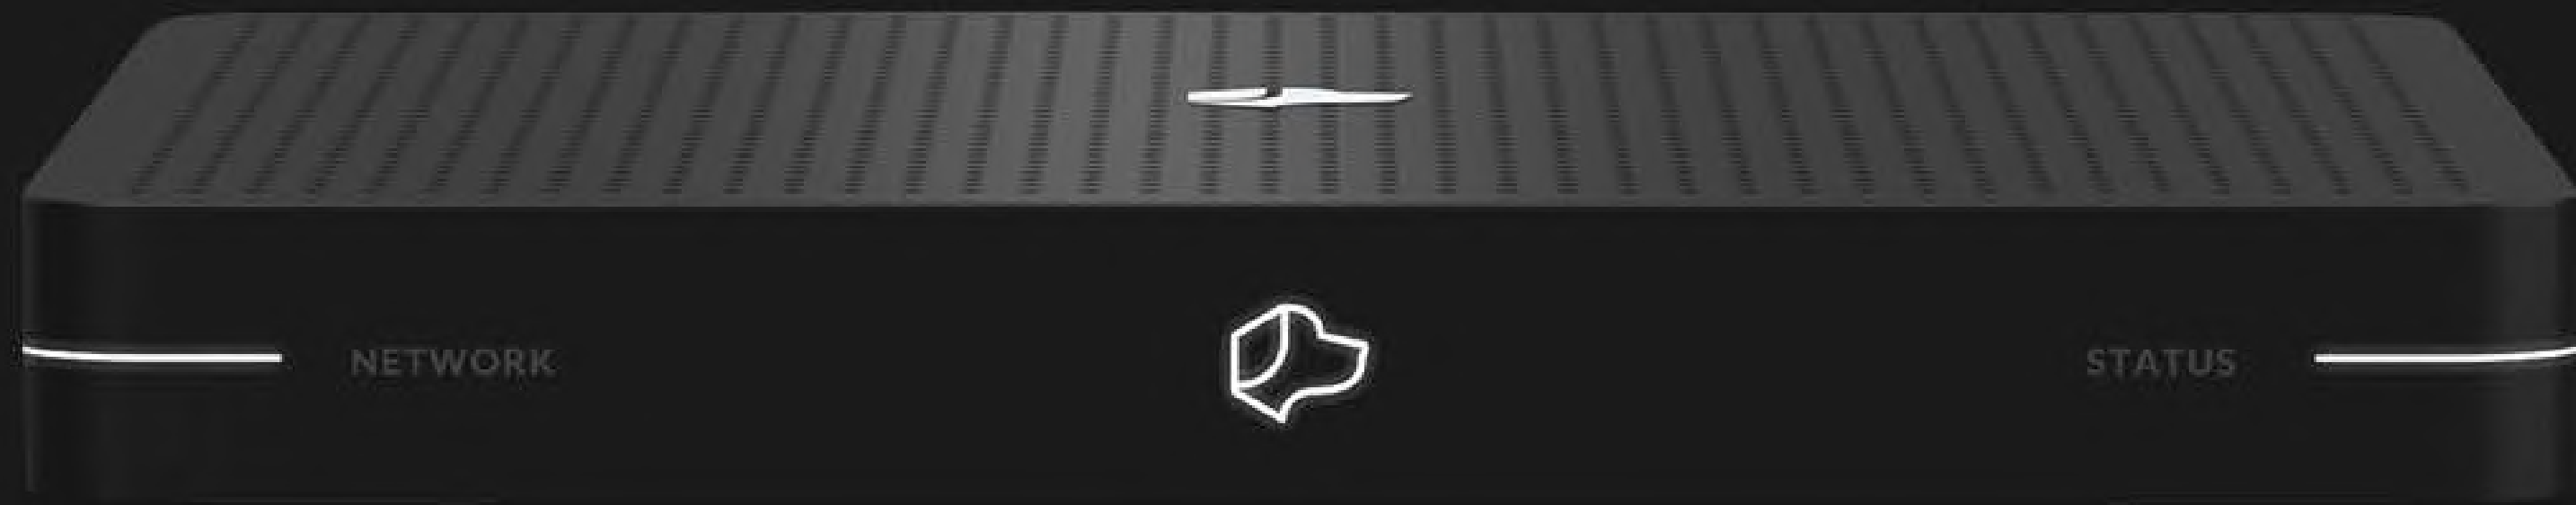

The touch dial on Josh Micro adapts to your commands to control lights, shades, and music.

Welcome Josh Core to the Family

The most robust, fortified, and versatile component of the Josh.ai ecosystem, Josh Core acts as the brain of the smart home, communicating with Josh Nano, Josh Micro, and the Josh app. Purpose-

built for custom installation, Josh Core seamlessly fits into a home technology professional's arsenal as the voice and automation processor to handle any need—no matter the complexity.

BIGGER, FASTER, AND STRONGER

Directly connected to the Local Network, Josh Core processes everything it can on site for a more stable, powerful, and private home automation experience.

DYNAMIC DESIGN

Crafted to stand on its own, Josh Core's modern lines and simplistic elegance blend into the design motif of the world's most luxurious spaces.

GIVING THE SMART HOME ITS VOICE

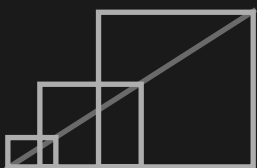

Josh Core includes two VoiceLink outputs, enabling simultaneous voice feedback to areas of the home where Josh Nanos or Josh Micros are installed.

JOSH CORE FEATURES

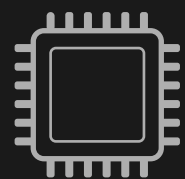

POWER

Low power, high performance architecture powered by Gigabit PoE

SCALABILITY

Scales to support projects with up to 100 microphones, including mixed Josh Micro/Nano installations

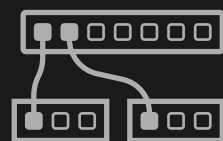

PROCESSING

6-core ARM processor with speeds up to 1.8 GHz

QUERY PROCESSING

Able to respond to over 1,000,000 voice and app queries

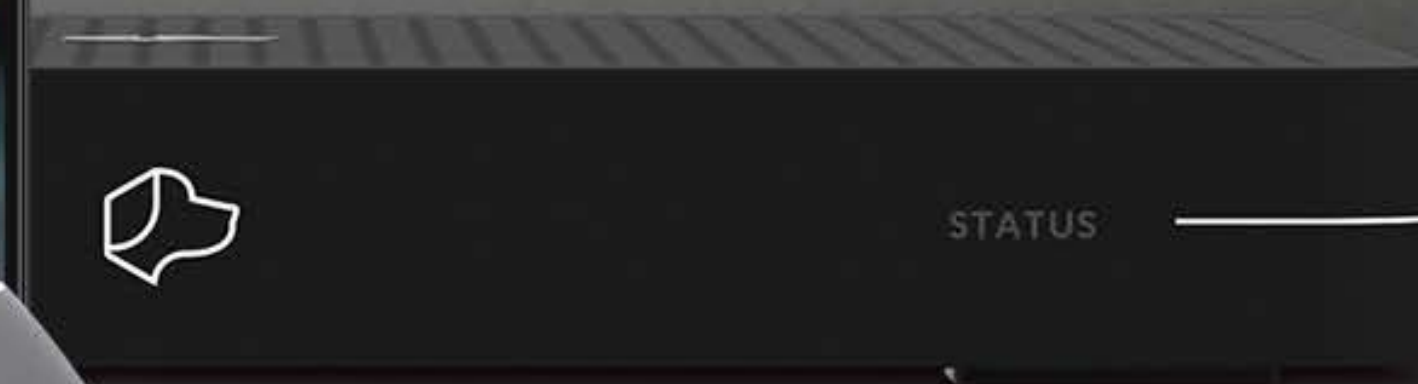

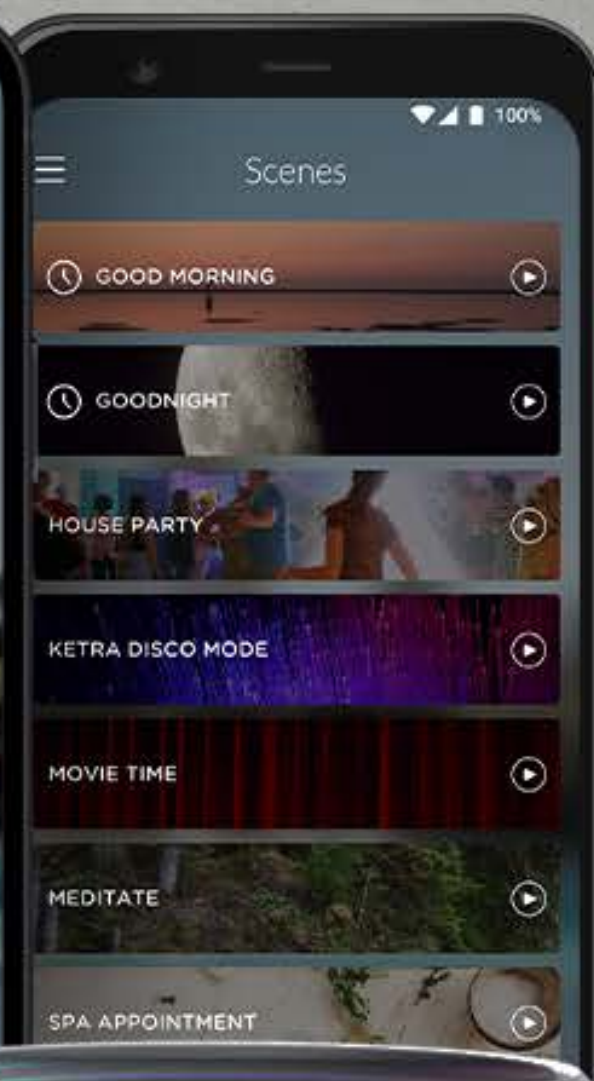

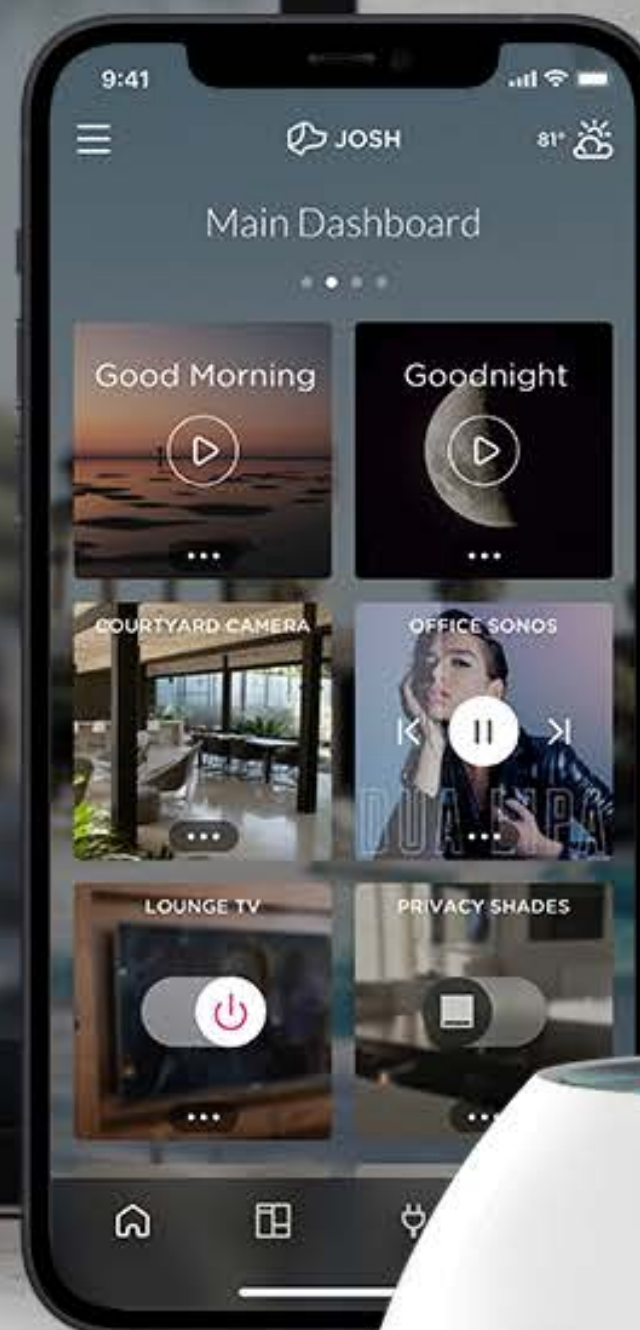

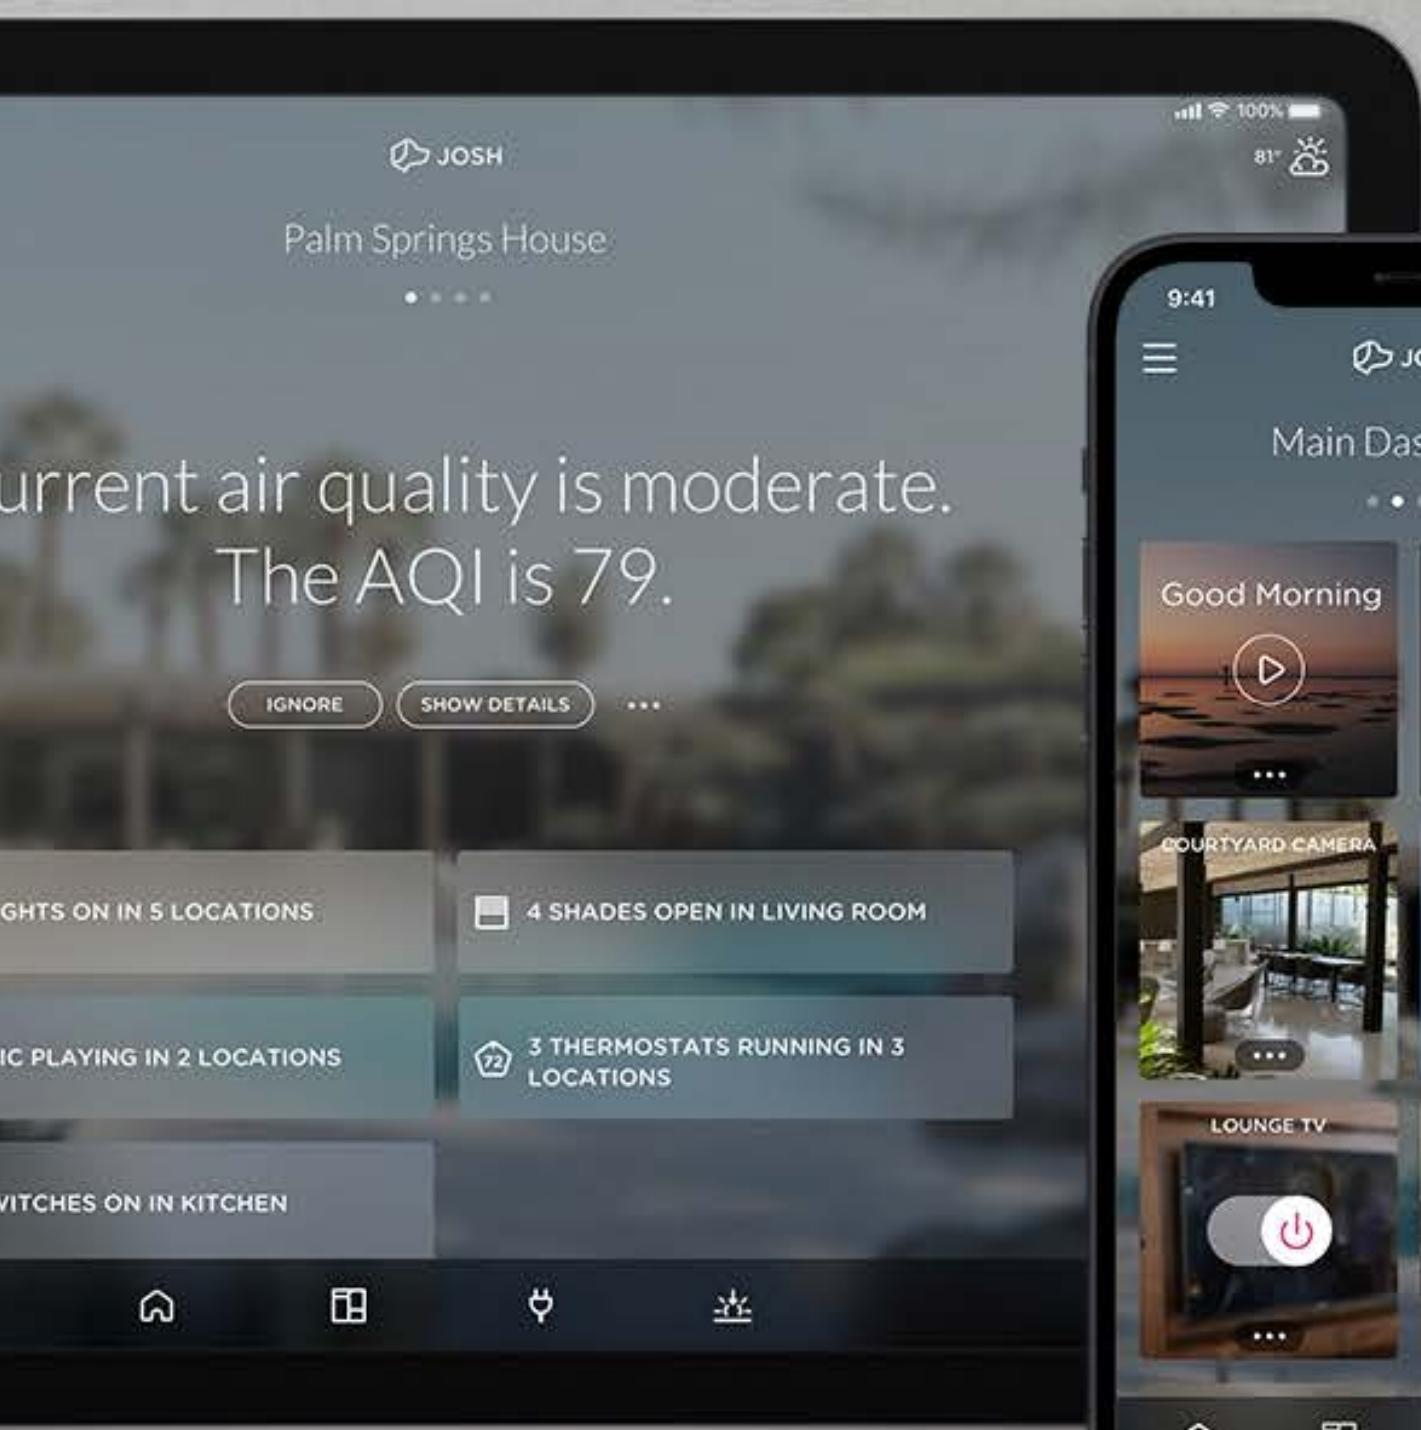

MULTIPLE VLAN SUPPORT

Configured to scale up to enterprise-grade networking deployments

PRIVACY MEASURES

Device control performed locally and voice processing computed on the edge

PRIVACY-FOCUSED

What's said in your home stays there.

Trust and responsibility help make a house a home. Josh understands the importance of protecting you and your family. We will never sell your data to third parties.

Josh is continuously learning more natural commands for the home, and owners have the choice to control how much data their home shares. Josh offers limitless personalization along with unparalleled peace of mind.

SPEAK NATURALLY

Josh understands natural speech—just say what's on your mind.

Speak with your home in whatever way you feel most comfortable—Josh understands any number of nicknames for a device, room, or scene.

MULTI-TASKING

“OK Josh, close the shades, play jazz in the master, dim the lights, and start the steam shower.”

With Josh, you can use a single command to control everything around you.

INTELLIGENT SCENES

“OK Josh, good morning.”

Imagine waking up to a home that adapts to start your day. Your morning playlist is queued up, the temperature is set just right, and your lights brighten to welcome the day. With Josh, easily create custom scenes and then trigger them with a phrase you create. “OK Josh, good morning” is all you need to start your day on the right foot.

PERSONALIZED TOUCH INTERACTIONS

Custom control with a simple touch.

How Josh Micro responds to touch is up to you—wake Josh, turn the microphone off, or run any scene with a single or double tap.

Control the ambience in your home through a contextual touch ring—adjust music volume, lighting, and shade levels by running your finger around the LED dial.

MOVE TO YOUR OWN BEAT

Ask Josh to play your favorite tunes.

Ask Josh to play any artist, album, song, genre, or playlist to create the perfect mood. Josh intelligently finds the right content for you, no matter how specific or broad the request.

"OK Josh, play Come Together by The Beatles"

IT'S SHOWTIME

Watch any show,
movie, channel, or
video clip.

Cue up your desired content simply by
asking for it. Josh turns the TV on and
chooses the right streaming or cable service
for a seamless entertainment experience.

*"OK Josh, Watch the Disney
Channel in the Living Room"*

INDUSTRY LEADING APPS

AI DASHBOARD

The AI-driven dashboard provides intelligent recommendations based on the state of your home. Josh will learn living patterns and suggest actions based on your preferences.

SCENES

Scenes allow you to easily set the mood by adjusting a collection of devices with one simple button press or voice command. Create and edit actions, invocations, and custom responses from Josh.

ACCESS ANY HOME

Check in on all of your properties from anywhere in the world. Never worry again if the doors are locked or not. Grant access, view cameras, and take action while you're away.

CUSTOMIZABLE

Create as many room and user-specific dashboards as you'd like for a bespoke experience. Pin any device, room, or scene tile to each dashboard and arrange it as you see fit.

VOICE & TEXT CONTROL

Tap the microphone icon to harness the power of Josh on the go. Josh also lets you text commands—providing you with options, no matter how you prefer to interact with your smart home.

ACCESS CONTROL

Manage access to areas and devices in your home with customizable user permissions. Privacy and security are top of mind when inviting family members or guests into a Josh home.

OK Josh,

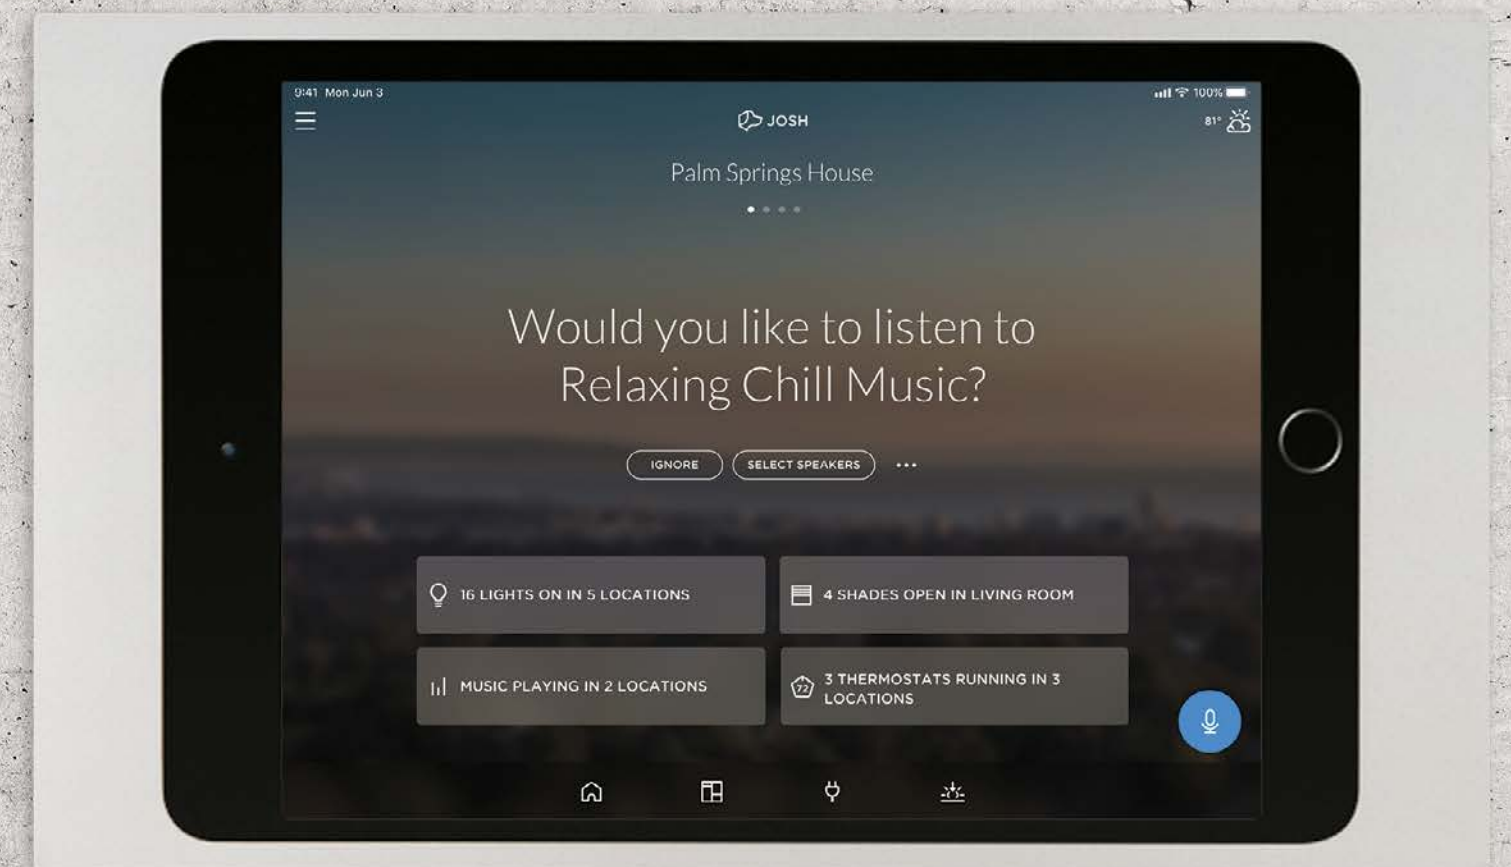

*Play jazz, dim the lights
and start the fireplace.*

DRIVEN BY AI

Proactive
recommendations
developed by
artificial intelligence.

Imagine a home that's intelligent enough to turn off the lights automatically when you go to bed, or pause the music when you leave for work. Josh is turning these future concepts into a reality.
