

A PARTNERSHIP FOR HIDDEN HIGH-PERFORMANCE LUXURY AUDIO

Experience the concert level performance of James Loudspeaker Outdoor Tower Speakers, now with the ability to be concealed in-ground when not in use by pairing James Loudspeaker OT speakers with the Future Automation OSL Lift. The combination of ultra-high performance freestanding speakers with a spectacular in-ground motorized lift creates an incredible audio experience capable of filling extensive outdoor spaces, all while having the ability to disappear completely from sight in a moment's notice.
