

81ST4 LANDSCAPE SERIES

8" PASSIVE SUBTERRANEAN SUBWOOFER

(1) 8" (203mm) Aluminum Woofer

The 81ST4 is one of several options in our line of landscape subwoofers designed for local zone bass performance. This small area subwoofer can be configured with 1 satellite speaker as a mono channel, 2 satellite speakers as a 2.1 stereo, or with multiple satellite speakers in small patio areas.

Having mastered the mix of excellence in design, technology, and superior sound, outdoor entertainment has never been so complete. Designed with motion in mind, James Loudspeaker outdoor systems provide consistent sound levels in multiple stereo listening areas: by the pool, next to guests mingling at the barbecue, or at the surrounding tennis courts. James subterranean subwoofer's direct burial, 8" compression band pass design creates unrivaled low end frequency response, while the external hooded port, aircraft/marine grade aluminum enclosure, aluminum woofer, and stainless steel hardware provide superior protection in extreme weather.

All James subterranean subwoofers are designed to be buried underground leaving only the hooded port visible. With a standard verde finish as well as the availability of custom color options with an additional charge, these subwoofers are able to be completely camouflaged into the environment, leaving as little visual impact as possible.

Size	10.95 h x 10.5 w x 10.5 d (in) 278 h x 267 w x 267 d (mm)
Freq Response	28-180Hz±3dB
Impedance	4 ohms
Sensitivity	87dB 2.83V /1m
Power req.	50-350W
Woofer	(1) 8" (203mm) Aluminum
Enclosure	Aluminum
Weight	27lbs/12kg

211ST SUBTERRANEAN SERIES

21" SUBTERRANEAN SUBWOOFER

(1) 21" Internal Active Woofer

The 211ST 21" subterranean subwoofer was developed for high SPL bass output outdoor applications. It features a powerful 21" transducer for maximum excursion and SPL. There is no 70V version though it can be used as a 70V sub by being driven by an M1000 subwoofer amp which produces 70V output. No 70V transformers are used in the 211ST even for 70V application. All applications should be bi-amped.

James' Landscape Speakers have mastered the mix of excellence in design, technology and superior sound... outdoor entertainment has never been so complete. The 70 volt system allows for runs up to a 1/4 mile without signal loss. Speakers placed in countless hidden positions can be aimed and sound suddenly snaps into focus: by the pool, next to guests mingling by the bbq or surrounding the tennis courts.

All Specifications are subject to change. An outdoor performance so discrete it is never found.

Size	24 h x 24 w x 24 d (in) 610 h x 610 w x 610 d (mm)
Freq Response	18-120Hz±3dB
Impedance	4 ohms
Sensitivity	91dB 2.83V /1m
Power req.	1000 watts
Woofer	(1) 21" (534mm) Aluminum
Enclosure	Aluminum
