

Introducing Architectural Honeycomb Shades

Create your comfort zone with the new Architectural Honeycomb Shades. This reimagined honeycomb design features a modern headrail aesthetic with integrated top back cover for a finished look, and a more contemporary 3/4" cell size fabric collection.

Modern headrail design with precision-fit integrated top back cover to minimize light creep and provide a finished look

Curated collection of fabrics featuring neutral-colored light-filtering and blackout options in a variety of beautiful textures

Color-coordinated premium metal headrail and bottom bar finishes

Effortless control of natural light through any Lutron residential system
