

# ROSEWATER —ENERGY—

## RESIDENTIAL ENERGY MANAGEMENT SYSTEMS

HUB20

HUB40

3-Phase System

# Protect What Matters Most

A house with a RoseWater Energy HUB is a worry-free home. RoseWater Energy HUBs are always engaged to ensure your lighting, network, entertainment, automation, security systems, appliances, plumbing, elevator controls and health and life safety systems are not only protected but capable of performing at their best, no matter the conditions. Because of this, RoseWater Energy HUBs also help protect your privacy, time, investment, and lifestyle.

## Power Through Any Weather

RoseWater HUBs keep homes running smoothly during weather events, power outages, and peak demand times. They also provide exceptional power efficiency and can eliminate intrusive service calls.

# The Most Complete Solution

RoseWater Energy HUBs are a highly differentiated solution that ensure homes have clean, uninterrupted power 24/7/365.

High-capacity storage provides both zero transfer time and ample standby power and our intelligent, touchless energy management system eliminates the need for a transfer switch and requires little, if any manual input.

## Industrial-Grade Surge Protection

- Safeguards against damaging power spikes, sags, and surges.

## Always Engaged

- Instantaneous power during outages, events, and anomalies.

## Voltage Regulation

- Stable power supply for connected equipment.

## Noise Filtration

- Reduces electrical noise for better performance.

## Scalable Solutions

- Models are made to meet the needs of a wide range of homes & lifestyles.

## The RoseWater Energy Brand Promise

### White Glove Design, Delivery & Commissioning

- Expert resources are on the project from start to finish.

### Reliability

- Durable products, exceptional people, and excellent warranty.

### Innovation

- Complete solutions built for a sustainable future.

### Peace of Mind

- You can always rely on Rosewater Energy.

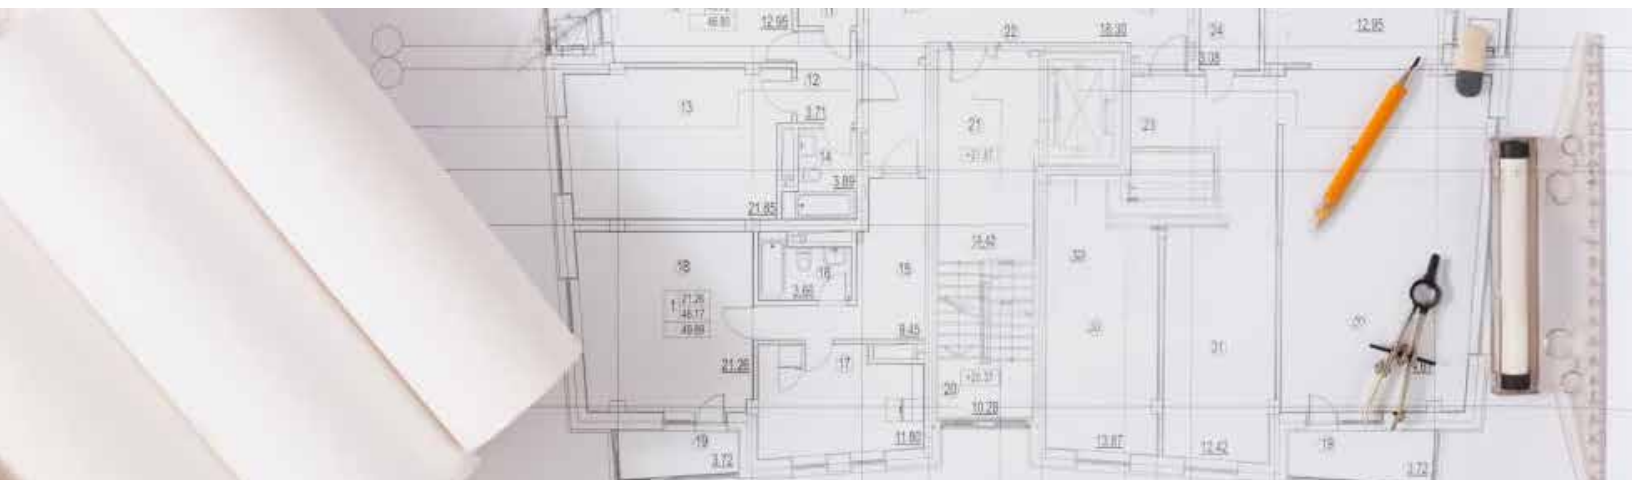

# Live Life Uninterrupted

RoseWater Energy HUBs are built to proactively power your home no matter the conditions. When you have a HUB in your home, you can say goodbye to intrusive and expensive service calls to repair, reprogram, or replace damaged items after a power or weather related event.

## Let Us Create Your Power Plan

Clean, consistent, and reliable Power is the Foundation™ upon which every home's infrastructure should be built. Sadly, the electrical grid is not capable of providing that and many homes face catastrophic outages and failures far too frequently. Appliances, automation equipment, elevator and lift controls, and cellars are especially susceptible and can be complicated and expensive to replace. However, what matters most is unique to every home. RoseWater Energy HUBs are designed to prevent power related problems and protect what matters most to you; your investment, lifestyle, time, and privacy.

Discover the full range of RoseWater Energy products and see how we can provide peace of mind by transforming your power and energy management experience.
