MATCH IT

THE SOUND STANDS OUT, THE
SPEAKERS BLEND IN

Almost 20 years ago when the first flat-panel display broke down the barriers of what TVs of the future could look like, Leon pioneered the development of a soundbar that matched the width of any screen—to seamlessly blend the TV and speaker into one cohesive design.

And we've been refining the concept ever since. With our broad range of Horizon and Profile Series speakers, you can customize the dimensions to perfectly match the height or width of any TV display. So the speakers fit seamlessly—beautifully—into any room design.

HORIZON SERIES:
THE ORIGINAL SOUNDBAR

Pioneers of the category, we have been handcrafting our Horizon Series soundbars for over 20 years. Custom built to match the width of any TV display, the Horizon Series delivers an immersive listening experience with a discreet aesthetic to blend in to any room.

Custom soundbars built to match
the width of any TV display

Installation by APW Custom Home Theatres | Chatham, Ontario

HIGH-PERFORMANCE, LOW PROFILE

Handcrafted to match the height of any TV, our Profile Series speakers mount to either side of the display, widening the soundstage to provide a high-performance listening experience with an unobtrusive design.

FIT IT

THE MOST SOPHISTICATED WAY TO INTEGRATE THE SONOS PLAYBAR

Get the signature look of a custom Leon soundbar with the versatility of the Sonos Playbar®. Our Tonecase FIT® mounts the Playbar directly above or below any TV and includes a custom grill to match the width for a streamlined look. The most sophisticated way to integrate the Sonos into any space, Tonecase provides the perfect fit for any room in the home.

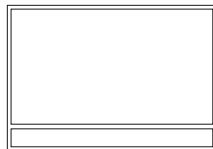

Tonecase FIT
Fit the Sonos Playbar behind a custom grill hand-stretched to match the width of any TV

FRAME IT

THE FINISHING TOUCH FOR ANY TV

Inspired by mid century media furnishings, our Edge Media Frame is handcrafted out of solid hardwood and encases any TV and soundbar in one simple design. Framing all sides of the display while neatly concealing the mounting and wiring, Edge brings the finishing touch to any home entertainment system.

Edge Media Frame

Enhance the TV display with a contemporary frame to accent any room's décor—all while elegantly hiding the mounting and wiring.

DESIGN MEETS TECHNOLOGY

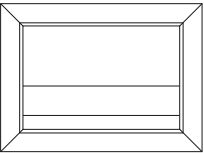

As we spend more and more time looking at our screens, the time in between should be treated with the utmost care. So while our screens increasingly become our windows to the world and all its complexity, sometimes you have to close the shade altogether.

Our collection of Media Décor products lets you regain control: to provide the perfect escape, the perfect backdrop to your family time. At Leon, we believe that a beautiful print or an original piece of artwork should be the centerpiece of the room. And coordinating artwork with the room's décor doesn't just look better, but it *feels* better. Because less screen time means more family time. And those are the moments that mean everything.

TECHNOLOGY THAT MOVES YOU

Elegantly hide any TV display behind beautifully printed scrolling artwork. Choose from our curated art and frame galleries to create a one-of-a-kind statement piece that perfectly complements your décor.

Hide any TV display behind
beautifully printed artwork

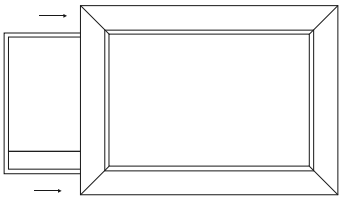

ELEVATE YOUR DÉCOR

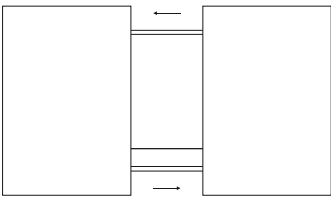

Our designer series of Eclipse Art Lifts keep your artwork on full display, while giving you the flexibility to create a modern home entertaining space. At the touch of a button, you can elegantly slide any piece of original artwork, mirror, or decorative panel to reveal and conceal the TV behind it—all with no visible tracks.

Eclipse Vertical
Slides original artwork up
or down to reveal the TV

Eclipse Horizontal
Slides original artwork horizontally
to reveal the TV

Dual Eclipse
'Splits' original artwork down
the middle to reveal the TV
