

The Light You Feel

Light is more than what
we see—it's a feeling.

It welcomes the day,
distills each hour.
It opens the world
to us. It opens us to
each other.

Why Lutron	60
Discover the Difference	66

The day begins with soft
sunlight passing through
light-filtering shades.

Intelligent fixtures
match the precise
quality of natural light.

You step into a home office.
Shades descend to cut
glare and the scene shifts
to even, energizing light.

Dozens of devices coordinate in the background, but the room is free of technological clutter.

Unparalleled rendering
and vibrancy pull vivid
color from works of art and
decorative centerpieces.

When we control light,
we gain the power to match
a moment to a mood, to
command attention and
evoke emotion.

Electric light that
faithfully replicates

the glow of
sun, moon, fire,
and star.

Great light isn't static—
it's rich and dynamic.

It shifts in color and
intensity, taking its
cues from the sun.

Innovative lamps and
luminaires bring the
quality of natural light
into the interior.

Lutron lighting is designed from the start to work with our most advanced wireless controls to deliver exceptional light, superior reliability, and unlimited design freedom.

A seamless system that knows the rhythms of your life and the experiences you value most.

Lutron — Intelligent Lighting

We call it Intelligent
Lighting—the future
of light for the built
environment.

Modernizing the Lighting at Frank Lloyd Wright's Winter Retreat

Location
Scottsdale, AZ

Lutron Specifications
Ketra lighting, Palladiom shades, Pico smart remotes

31

Lutron Intelligent Lighting replicates the lantern-like glow that first drew Frank Lloyd Wright to the desert.

"When we saw the Ketra lighting, we recognized the opportunity to present the historic core of Taliesin West. Frank Lloyd Wright was all about testing boundaries and using new technologies. Everything just fit."

Fred Prozzillo

The Nord McClintock Family VP of Preservation and Collections, Frank Lloyd Wright Foundation

Automated window treatments

are like a dimmer
for the sun.

The sun's illumination
is rich and life-giving.
It's the light we belong in.

Turn daylight into a dynamic, choreographed element of interior design.

Lutron window treatments
aren't just automated—
they're intelligent.

Shades that track the position of the sun, that know when you prefer privacy and when you want to feel connected to the world outside.

An effortlessly personal
experience of natural
light that keeps up with
the moment.

Young Huh's Hudson Valley Retreat

Location
Hyde Park, NY

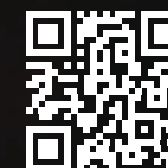

Lutron Specifications
Ketra lighting, Palladiom keypads,
Triathlon Roman fabrication kit, seeTouch keypads

45

Lutron solutions empower the renowned designer to create a home that responds to the world outside the window and the human needs of each moment.

"The first thing I look for
is the mood I want to feel.
That's where the design
story starts."

Young Huh
Interior Designer

Hand-finished
keypads orchestrate

natural and
electric light with
a single touch.

Time-honored
craftsmanship.
Evocative forms.
Authentic materials.

Meticulous design
elevates keypads above
mere functionality into
architectural accents in
their own right.

Lutron keypads aren't merely elegant—they're bespoke. They reflect the individuality of their users and of the spaces they join. And we don't just personalize the keypad—we personalize the experience it sets in motion.

Bright
Natural
Relax
Nightlight

Custom atmospheres cued with one touch.

The placement of each shade or blind, the color and intensity of each light fixture, the temperature of the room, the music in the background—all crafted for the moment at hand.

The tools we use
every day should feel
intuitive and true.
Rigorous, innovative
user design lives in
every detail.

Lutron's story
began more than
65 years ago

with a category-
defining invention:
the solid-state
dimmer.

Why Lutron

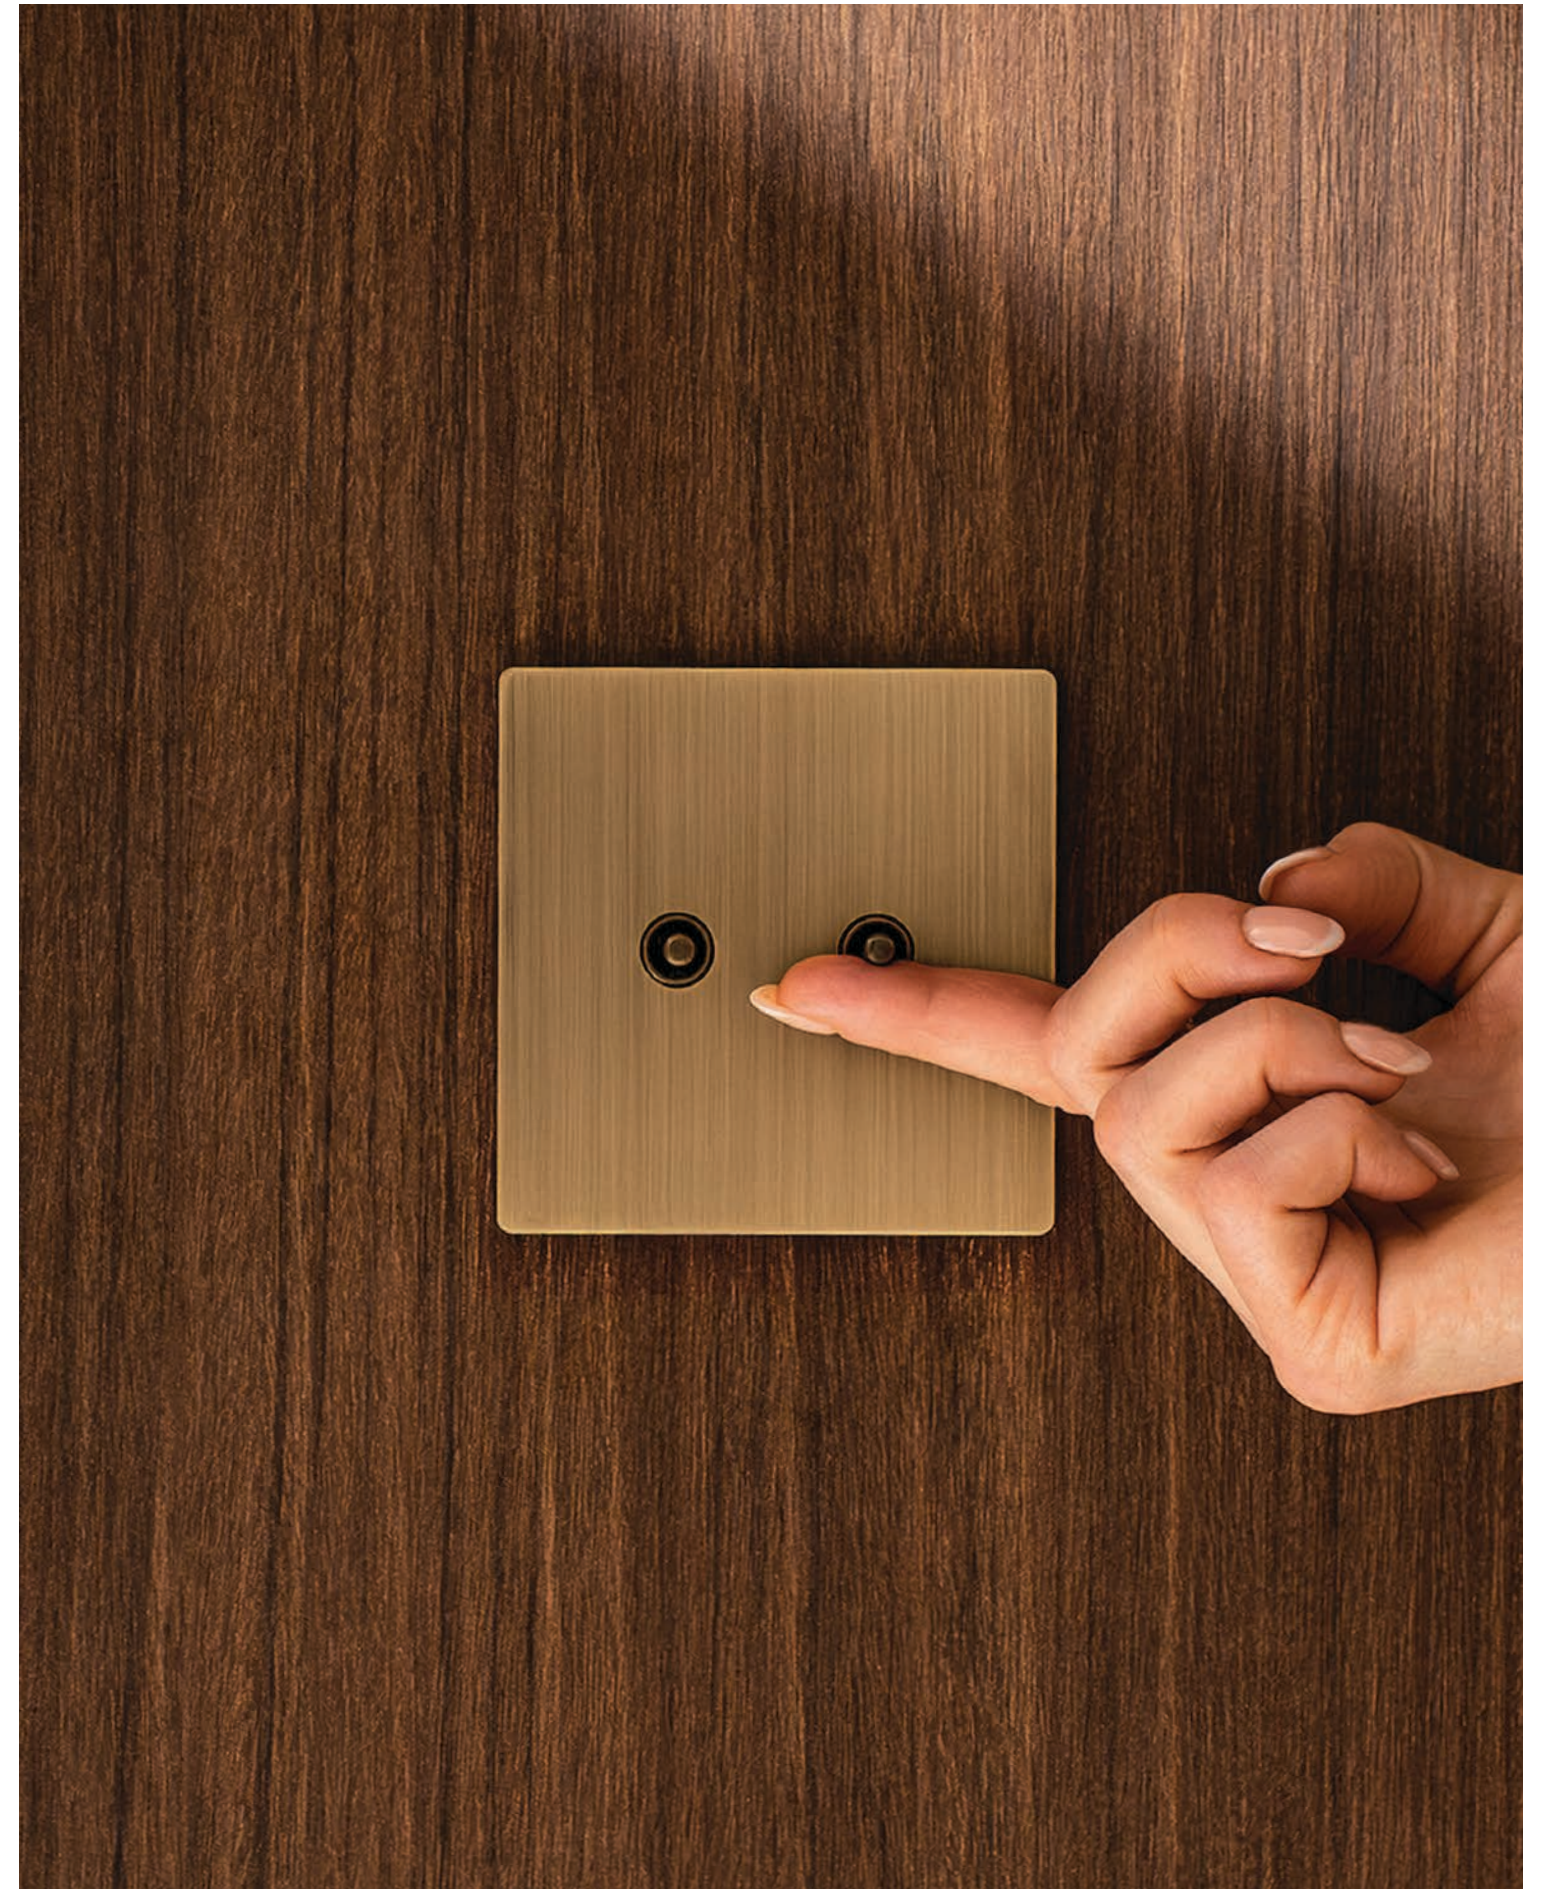

But the true innovation wasn't a product, it was an idea: that lighting control should be personal, adaptable, and effortless. We believe having the right light for every moment elevates our lives.

Why Lutron

Through decades of relentless experimentation and devoted attention to detail, the vision born of that belief has grown.

But our most advanced solutions remain as seamless and simple to use as that first dimmer—natural extensions of the moments that make up your day.

Experience light.
